

november 2021, Baiteshwor

# Strategy in Baiteshwor Municipality

## 1. Working to address real needs of the needy people

- We welcome the real needs identified together with related communities
- We accept only those needs to address with the resources available to us.
- Solving the needs will turn the living standards of locals
- Approval of local Ward/RM

## 2. Sustainability of the initiatives (we support to there where impacts will be permanent for betterment)

- We aim to work where change will be permanent
- We work there where community takes ownership, maintain their infrastructure, projects or results
- Local governments and communities show strong commitment to maintain, operate and use the infrastructure.
- Assures to take ownership and budget from local governments to maintain infrastructure and results

## 3. Participation of local government and community

- Participation of local communities through inception to project completion
- Cash/kind/labour contribution from the locals
- Participation of women and marginalised people in the process
- Communities takes leadership (Samundra Nepal is just a supporter)

## 4. Collaborative efforts/synergy and complement effort

- We urge collaboration with stakeholders (Wards, RM, Community, individual, Hospital, Health Post, Himali Health Cooperative, local leaders etc.)
- We welcome synergy and complement in efforts

## **5. We maintain transparency in efforts**

We maintain transparency and take accountability of our efforts

## **6. 'Do no Harm'**

- Our efforts shall contribute to create social harmony in Baiteshwor RM
- We respect local culture, lifestyle and people
- We do not claim to solve every problems in the RM
